

# BIOTOP 10 ACF

Vegetal based detergent, for intermediate dip or spray cleaning. Alternative to solvents.

## COMPATIBILITY:

- All metals

## INGREDIENTS:

- Surfactants
- Solvating agents, anti-corrosion agents

## PHYSICAL AND CHEMICAL DATA:

- pH concentrated: 7.5
- Density: 1.025
- Surface tension: 27.3 mN/m

## INSTRUCTIONS FOR USE

Optimum use conditions may be affected by the quality of the water used in the baths, as well as the type and quantity of contaminants.

- Concentration for dipping: 5 to 10%
- Concentration for spraying: 3%
- Temperature: 20 to 70°C (68 to 158°F)
- Time: 3 to 5 min.

## FOR USE IN THE NGL FD60 DEGREASING FOUNTAIN:

Degreasing fountain intended for several types of industries: watchmaking, medical, electronics, micromechanics and aeronautics...

It replaces traditional solutions that use solvents, oils or alcohols, which are harmful to health and the environment.

## BENEFITS:

- Substitute for kerosene and solvents
- Water based solution
- Reduced operating costs
- Improved safety/environmentally safe
- Recycling of the degreasing solution
- Improved cleanliness and organisation of workshops
- Mobile equipment

## BENEFITS:

- Greater biodegradability, helps to preserve the environment
- Non-toxic to operators
- Limited foaming at room temperature, non-foaming above 50°C (122°F)
- An alternative to kerosene, for use with the NGL FD60 degreasing fountain
- Contains no VOCs
- Corrosion protection for sensitive metals
- Reduction of drying time

20/12/17

## STORAGE CONDITIONS:

- Keep the recipient hermetically sealed between 5°C and 40°C (41°F and 104°F) in a dry place.
- Always keep in packaging made from the same material as the original packaging.
