HIGH QUALITY, RELIABILITY, EXPERTISE

ECOLOGICAL CLEANING SOLUTIONS

 SWISS QUALITY

A TEAM OF EXPERTS AT YOUR SERVICE

CLEANING AND SURFACE PREPARATION

For over 40 years NGL Cleaning Technology SA has been recognized as a specialist of precision cleaning in demanding industrial fields.

FORMULATION

We formulate detergents with the lowest possible impact to users and the environment.

MANUFACTURING

Safety and productivity are at the heart of our manufacturing, to guarantee a timely delivery and a consistent quality.

APPLICATION

Our expertise of the materials, the contaminants and cleaning techniques plays a key role in delivering technical advice and designing the right processes.

Our products come in liquid and powdered form, for ultrasonic, spray or mono-chamber systems. Available pack sizes : 1 and 5 L (for samples) and 10, 25, 200 L.

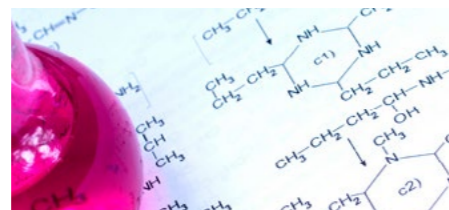

THE APPLICATION CENTER IN NYON, SWITZERLAND

Our network of technical experts can help you improve your current cleaning process, or help you design one from scratch around your parts.

NGL Laboratories are open to customers who wish to carry trials in pluritank, spray or mono-chamber industrial cleaning systems.

State of the art measuring equipment is also available to measure precisely the cleanliness and tension of the cleaned surfaces: optical microscopes, scanning electron microscopes, particle counting system and surface tension measuring devices, etc.).

SOLUTIONS

Pollution :

- Abrasives (polishing pastes)
- Coolant (neat, soluble oils)
- Glues
- Oxides

Surface preparation :

- Ultrasonic or spray degreasing
- Deoxidising
- Passivation
- Protection lacquers
- Corrosion protection...

APPLICATIONS

- Watch & Jewelry
- Luxury Accessories
- Medical devices
- Automotive & Aerospace
- Semiconductors & Electronics
- Precision optics
- Frames & Ophthalmic optics
- Cutting tools
- Moulds
- Mints

WHY NGL?

We can design the right process that will get you the best results from a coarse degreasing up to the highest standards in the industry, for all types of parts

Our application centers and experts are here to support customers with their cleaning processes

With our NGL Academy, you can train your staff and optimize your existing cleaning processes.

OUR DETERGENTS

Please note that this is a selection of our products. The complete list and technical Data Sheet on a specific material are available at contact@ngl-group.com

ULTRASONIC - RANGES

RUBIFIN, ALLSTRIP Solvent

High flash point solvents for a safe removal of non polar pollutions such as varnishes, glues and lacquers or neat cutting oils

RODACLEAN Strong alkali

Alkaline detergents for the removal of stubborn pollutions such as heavy poising pastes and soluble oils. Particularly efficient on steel parts

GALVEX Mild alkali

Mild alkline products for removal of a wide range of pollutions, including polishing pastes on copper based alloys such as brass

RODASTEL Acidic

Acid products from mild to strong, for spot free finish or heavy deoxidizing

KORROSTOP Steel protection

Rinse additive for the protection of sensitive steels

OPTICAL Plastic and glass

Full range of detergents adapted to cleaning of plastic and mineral glass lenses

SPRAY - RANGES

DECOCLEAN Strong alkali

Alkaline detergents for the removal of stubborn pollutions such as heavy poising pastes and cutting oils. Particularly efficient on steel parts.

DECOSPRAY Mild alkali

Neutral products with a mild degreasing power for sensitive alloys such as aluminium. Free rinsing finish for a bright and spot free surface

BIOPTIC Acidic

Acid products from mild to strong, for spot free finish or heavy deoxidizing

VACUKLEEN Carbide protection

Strong Alkaline products for carbide materials

PROTECTION - RANGE

SCHUTZLACK ROSE Protection

Spray or liquid Ready to use spray on lacker for the protection of mirror polished surfaces.

OUR EQUIPMENTS

SOCLEAN

An excellent alternative to traditional container.

The biological parts cleaner works with a SoClean Liquid with a solvent-free, non-toxic and environmentally friendly, pH neutral cleaning solution, heated at 38°C, and SoClean Tabs, microorganism tablets which break down oils and continuously regenerate the solution.

UPC3000

Ultrasonic process controller

Compact and portable unit, equipped with a microprocessor and 3 measuring sensors for the complete and immediate control of cleaning process.
